You bet Sam was hot under the collar.

Mrs. Anna Harrod, a Preacher, well known in this section, where she has conducted numerous meetings, was forced to leave Sugar Grove Church in Bath county Sunday night, because she attacked the congregation and Pastor in her sermon. ## HON. A. P. MALTBY

### Death in New York of Former Mason County Man

Hon. Anson P. Maltby, who lived at Washington many years ago with his parents, died at his home at High Bridge, New York, Friday, July 7th. Mr. Maltby was the descendant of one of Kentucky's most famous families, through his mother, who was a Marshall. His father, Lafayette Maltby, was a distinguished lawyer of New England.

Mr. Maltby himself achieved high position at the New York Bar, and was at one time one of the leaders of his profession in New York. He first won National reputation in the famous suit of General Fitz John Porter, for whom he was leading counsel.

Several years ago during a visit to Kentucky Mr. Maltby was injured by falling from a moving car and never recovered his strength and vigor after that injury. He continued in the practice of his profession for a year or two and then retired to his home at High Bridge, just outside of New York City, where he lived with his family.

His wife, who was Mary Desha Breckinridge, the eldest daughter of General and Mrs. John C. Breckinridge, survives, with three daughters, Frances, Elizabeth and Mary.

The funeral was held in New York Monday.

## Board of Education

The Board of Education met last evening in High School Building pursuant to adjournment, President Sallee in the chair.

The Committee on Truant Officer, Judge Hutchins, made a written report advising the Board that under the law it was not obligatory upon the Board to elect a Truant Officer. The report was received and ordered spread on the minutes.

A small batch of claims and accounts were ordered paid.

Mr. Taylor produced and filed a written report of Opera-house receipts and expenses during Commencement week, which was read and ordered recorded.

The real tug of war came on consideration of previous motion to abolish the discrimination in the "Red Book" that bars female teachers from applying to teach in the fifth and sixth grades. The motion was to make women eligible to teach in these grades as District Principals.

In the Fifth Ward School a woman has always taught these grades, but she is not the Principal of that building. Throughout the city women have for years taught in first, second, third and fourth grades. Men have taught in fifth and sixth grades and then women teach again in seventh, eighth, ninth, tenth and eleventh grades. The ages of the pupils are 10 and 11 years in fifth and sixth grades.

Judge Hutchins grew eloquent in advocacy of female teachers and ridiculed the notion that women could not discipline ten and eleven-year-old children. Messrs. Nesbitt, Russell and Taylor spoke on the question. During the discussion it developed that the prohibition against women in "Red Book" was put there by a former male teacher for the purpose of protecting the male Principals from female competition.

After the oratory died away the vote stood as follows: For women Principals—Sallee, Hutchins, Taylor; against women Principals—Calvert, Schwartz, Russell, Nesbitt, Dawson. Absent members were Poyntz, Ryder and Davis. The women lost out on the motion.

Proceeding to fill the vacancy in the Fifth and Sixth grade in the Plum Street School the vote was as follows—

For Miss Ethel McMillan, Principal of Dover Schools, Sallee.

For Prof. A. J. Hargett of Augusta, Taylor.

For Prof. W. P. King of Mill Creek, Calvert, Schwartz, Hutchins, Russell, Nesbitt, Dawson. Prof. King was declared elected.

Messrs. Russell, Nesbitt and Poyntz were put in nomination for Vice-President of the Board to fill vacancy, pending which a motion to adjourn was carried.

Every man or boy that are members of the Christian Church are expected and requested to meet in the Chapel Thursday evening at 7:30. Business of importance concerning the Church will be discussed by the men and boys and a social hour of interest will be held.

## DANGEROUSLY ILL

### Mrs. Mollie Galbraith Suffering With Typhoid Fever in Cincinnati

A letter received this morning by Mr. Joseph R. Davis of this city from Dr. M. H. Davis of Mayfield stated that he had just returned from the Cincinnati Hospital, where he had been to visit Mrs. Mollie Galbraith, and that he found her dangerously low with typhoid fever, with the chances against her recovery.

She will be pleasantly remembered here by our citizens as the lovely wife of the late Hon. L. W. Galbraith.

Peter M. Sears, a tobacco buyer of Lewis county, fell from the ferry boat at Portsmouth Sunday and narrowly escaped drowning. He was under the influence of liquor and had climbed onto the rail of the boat, when he lost his balance and fell overboard.

## Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Mail's Catarrh Cure. Send for circulars free.

## WHY?

Why are the good cooks getting so scarce in Maysville?

Because so many of them have gone and are going every day or so to Cincinnati, Dayton, Washington, C. H. and other Ohio towns.

Why do these good cooks leave Maysville to go to Cincinnati and other towns mentioned?

Because they get more money for less HARD work.

How is it that one woman can do all the cooking and home work, and even laundering, too, at these other places and yet be said to be less HARD worked than she would have to be just cooking alone in Maysville?

Because cooking with Gas removes all the burden of kitchen labor, saves half the time, and leaves the cook fresh and able to do the other higher household work, and even the laundering where Gas is used for that purpose also.

## BRING IT HOME TO YOURSELF!

What would you do if you were the cook? Go away like the rest of them. It is a practical proposition. If you want to keep your cook put yourself on an equal footing with your neighbors across the river.
